Indicator: Chronic Disease Management Plan

Data Sources	Definition	Numerator	Denominator	Comments	Covariates
MBS	Proportion of home care recipients who had a chronic disease management plan.	Number of home care recipients who had a Medicare subsidised chronic disease management plan (Table 1).	Number of home care recipients. Exclude DVA card holders.	Exclude DVA card holders may access these services and be reimbursed through DVA benefits and may not be captured in the MBS dataset.	Age, sex, number health conditions.

MBS: Medicare Benefits Schedule. **DVA:** Department of Veterans' Affairs.

Table 1. Chronic Disease Management Plan, MBS descriptions, codes, and eligibility.

MBS Service[1]	Code
Preparation of a GP Management Plan (GPMP)	229, 721
Coordination of Team Care Arrangements (TCAs)	230, 723
Contribution to a Multidisciplinary Care Plan, or to a Review of a Multidisciplinary Care Plan, for a patient who is not a care recipient in a residential aged care facility	231, 729
Contribution to a multidisciplinary care plan, or to a review of a multidisciplinary care plan, for a resident in an aged care facility[2]	232, 731
Review of a GP Management Plan or Coordination of a Review of Team Care Arrangements	233, 732
Cancer Care Case Conference	243, 244 871, 872
Multidisciplinary case conference by Prescribed Medical Practitioners	235, 236, 237, 238, 239, 240
Multidisciplinary case conference by General Practitioners	735, 739, 743 747, 750, 758

[1]These services may be provided more frequently in exceptional circumstances (e.g., a significant change in the patient's clinical condition).
[2]These services are only available to those in residential aged care facility, however we have included these codes in this indicator due to these items being occasionally reported for those in our cohort while still receiving home care. This may be due to transition or respite care which can overlap with home care episodes.
